**Subject:** [External] PLEASE REJECT DOMINION ENERGY'S RECENT PROPOSAL

Hi,  
I am a resident of South Carolina and my family gets our energy from Dominion Energy. We oppose Dominion's recent proposal for the net metering program. As ratepayers, and as existing and future customers, we have a strong interest in the establishment of a fair and reasonable rooftop solar program. I am concerned about this proposal as it will limit the accessibility to renewable energy. I believe in supporting renewable energy and opposing anything that makes it less accessible or equitable. Dominion's proposal for net-metering and other price increases violates the guidelines set by the 2019 Energy Freedom Act. This proposal would increase the cost of having solar power by over 55% and add an unfair and exclusive 'solar subscription fee' that could potentially turn people away from solar energy. The Commission has a responsibility to be "non-discriminatory to small power producers" and reject this proposal.  
Thank you for your time,  
Meadow Waddell
